TUES, SEPT. 8, 7:00 PM

**SCORCHED SAWMILLS: IMPACTS OF
A CONFEDERATE RAID
ON THE LUMBER INDUSTRY**

Brianna Patterson, a recent UWF historical archaeology graduate, will present some of the research she gathered for her thesis. Following a scorched earth policy, many industries local were destroyed to prevent the other side from using the facilities. The sawmills in our area were destroyed for this reason. You will want to hear the rest of the story.

Join us for the lecture on Zoom. A time for question will be held at the end of the program. See you there!

JOIN THE 21ST CENTURY—TRY ZOOM!

OK - if I can do it, you can do it. It's not that hard! Just because you are over 50 or 60 does not mean you have to miss out on exciting events you would normally be attending in person AND it is free!

Many different platforms are available for groups to use to "get together." No, it's not as wonderful as being face to face, but it is much better than just talking on the phone or not having our usual meeting interactions. At least you can tell if folks are smiling or not.

The ZOOM platform is very user friendly and can be downloaded onto your computer or cell phone or you can simply attend through your internet browser. Do this NOW, not the night of the program. The following link for the Zoom tutorial can help get you set up and ready to enjoy our PAS meetings again. No more looking for a parking place or trying to figure out how in the world to pay for it.

The ZOOM platform uses symbols that you will recognize to turn your microphone on-off and video on-off. You will see these as you move your cursor over the screen. There is a chat function where you can type in questions to be answered at the end of the program. Try it. Ask questions. Join us for the meeting. New to Zoom? No problem, click [HERE](#) to access a Zoom Tutorial.

*The link to RSVP for the meeting is on next page.
